

PS49-2

Power Supply 13.6VDC 5Amp Power Store

Features

Output short-circuit protection
Output current-limiting and over-voltage protection
Separate standby battery circuit with fast change over
Standby battery voltage shutdown below 10.8VDC
Lockable steel enclosure
LED status indication on front panel

Technical specification

Input:	190-265VAC - 50/60Hz
Output:	13.6VDC 5.0Amp max
Protection	Output short-circuit protection
Recommended battery	12V 17Ah (BA04-2)
Metal housing dimensions	295(H) x 198(W) x 90(D) mm
Enclosure	Lockable enclosure, grey epoxy coated finish
