Flexible Triple-Lens Viewing

Enjoys Versatile Coverage In One Camera

With three lenses working in flexible angles, you can easily adjust how the camera keeps an eye on your space.

Scenario 1

Keep an eye on what's far away

Scenario 2

Watch more of your home at once

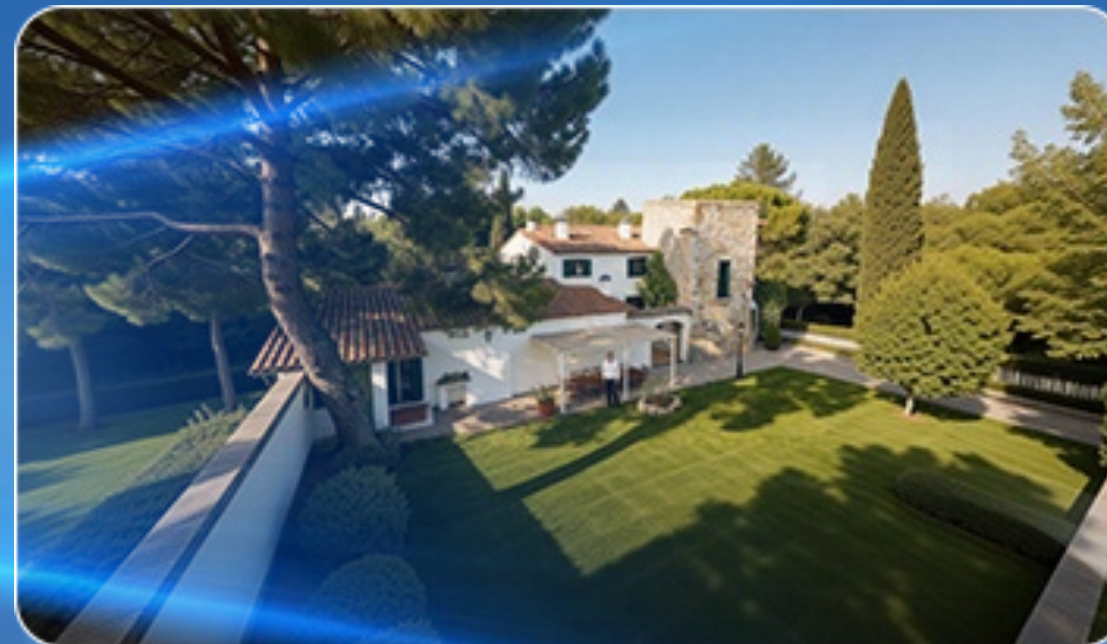

Up to 12x Mixed Zoom

Zooms In Up To 12x Smoothly To See Farther

Details that were once too far to see clearly are now within view. From people walking up your driveway to cars approaching your home, important details now stay crystal-clear.

EZVIZ H90f With Co-Detection

Tap-To-Zoom Control

Taps The Bigger Picture And Zooms In To See Details

Simply tap any area in the wide view to instantly zoom in for a closer look. The camera automatically focuses on the selected spot, allowing you to quickly check important details without manually adjusting the view.

Auto Patrol Mode

Customizes Important Spots For Auto Security

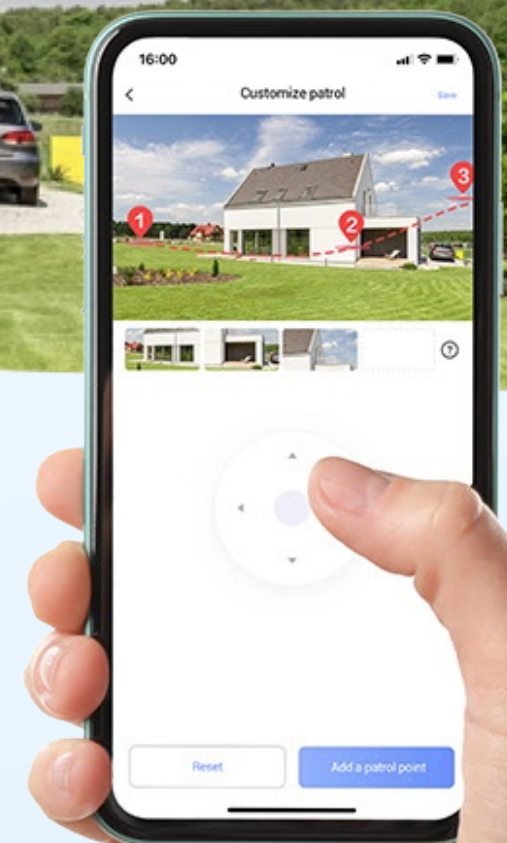

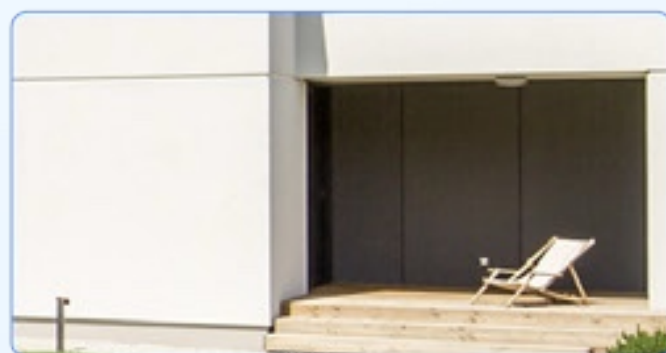

Set up key spots you want the camera to watch, and it will automatically patrol between them at set intervals.

Patrol horizontally

Follow pre-set 4 points

Preset Location & Zoom Ratio

Saves Your Preferred Setting For Quick Views

Normally, checking specific areas requires manually adjusting the camera each time. With preset locations and zoom settings saved in advance, you can instantly return to important views with just one tap.

Saves preferred pan-tilt angles

Saves zooms ratios for each angle

Smart Compression Mode For Video Storage

Enables True 24/7 Recording with Smart Storage Saving

With EZVIZ's enhanced saving mode with all-day recording, the camera captures just 1 frame per second during quiet moments to conserve storage. When an event is detected, it automatically switches to high-frame-rate recording for smooth, detailed videos.

Smart Color Night Vision

Lights Up Your Night With Bright Colors

Say goodbye to blurry, washed-out night footage. Powered by built-in spotlights, the H90f brings the night to life with vivid, full-color clarity, even in near-total darkness.

Active Warning with Red-Blue Light & Siren

Adds An Extra Layer Of Protection For Your Home

When suspicious activity is detected, the camera can trigger flashing red-blue lights and a loud siren to draw attention instantly. This active warning helps alert people nearby and makes unwanted visitors think twice.³

Dual-Band Wi-Fi 6 Network (2.4/5GHz)

Enhances Live Feed For Lag-Free And Stable Clarity

With dual-band Wi-Fi, you can switch between 2.4 GHz and 5 GHz for smoother, faster streaming. Paired with Wi-Fi 6 stability, the camera maintains reliable connectivity wherever it's installed.

3 Red-blue light and siren are off by default. Please enable it in settings to use this feature.

4 ~~Under normal conditions, the siren will sound when the vehicle is in motion, and the light will flash when the vehicle is in motion. However, under special conditions, the siren will sound when the vehicle is stationary, and the light will flash when the vehicle is stationary. This is because the siren and light are controlled by the vehicle's motion sensor, which is not always accurate. Therefore, the siren and light may sound or flash when the vehicle is stationary. This is a normal phenomenon and does not affect the use of the vehicle.~~
